To whom it may Concern:

Our relationship with Harris Golf Cars began in 2005, and it has been nothing but positive ever since. The Yamaha electric carts have been a great addition to the club. The classic look and design, along with the overall comfort level add to the experience at Conway Farms Golf Club.

Having worked with Scott Harris for ten years now, I can tell you he is an honest, trustworthy, and fair business man. Anytime we are in a jam or need some help, he always lends a helping hand. Just this past month, he got us 12 golf cars for a wedding with less than 24 hours' notice.

Even though we are an all walking facility with a small golf car fleet, we still receive the same high level of service as other large fleet facilities.

In conclusion, I highly recommend Harris Golf Cars to any golf facility. The excellent customer service and the great performance of the Yamaha golf cars are a great addition to any club.

Respectfully yours,
